TRETTITRE

# PEERLESS SOUND.

TreSound1

EUIPO: No 008842280-0001

## TreSound1

3-Way HiFi Bluetooth Speaker

- TWS pairing & 360° surround sound.
- 3-way speaker design & completely separate acoustic structure.
- Wood & aluminum alloy cabinet with the perfect piano paint finish.
- 1.25" silk film tweeter x1 + 2.75" midrange speaker x1 + 5.25" subwoofer x1.
- Bluetooth 5.3 with dual DSP decoding.

# TreSound1 (Gen4)

3-Way HiFi Bluetooth Speaker

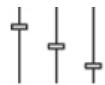

Inspiration comes from the mountains as reflected in the design's shape and ability to call the soul. The mountain design includes tweeters and full-range speakers to ensure the sound quality and avoid reflections. The large volume of the valley provides enough space for the booming woofers. The mountain design fits the principles of speaker design.

## HOME ART

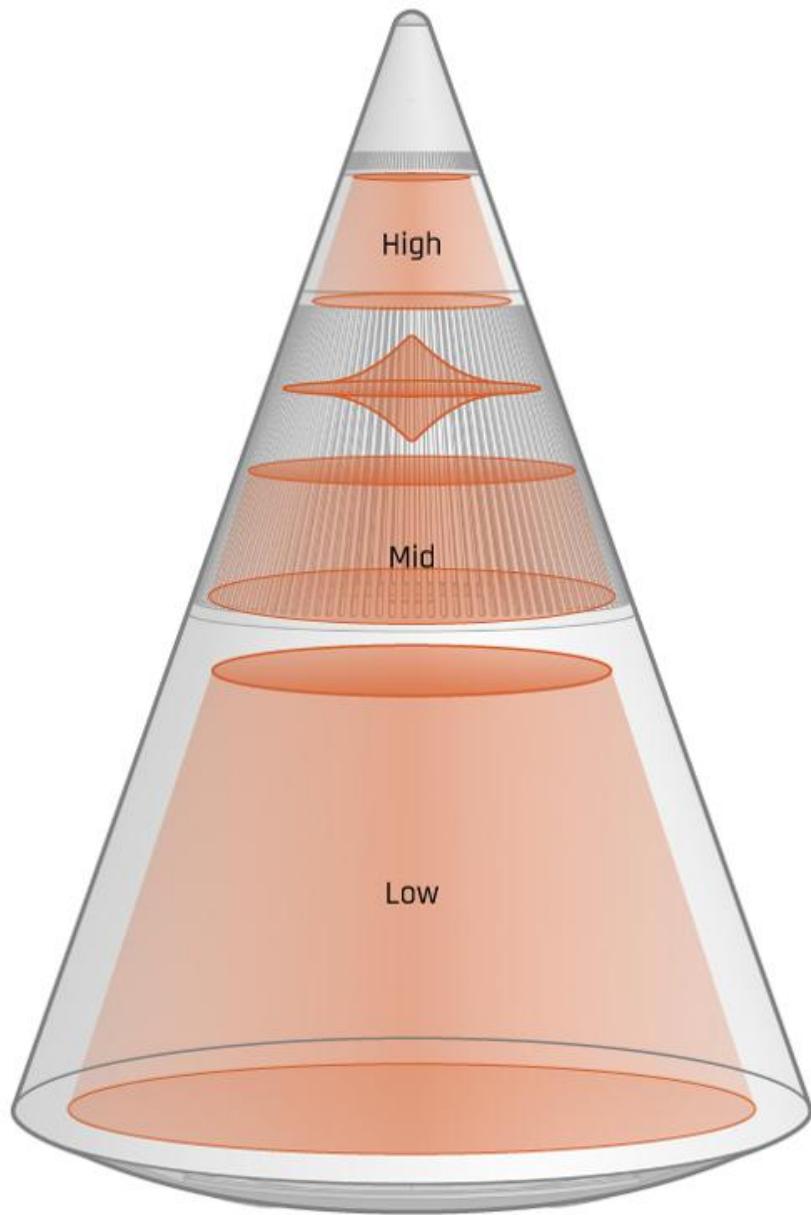

Sound Looks Beautiful

# 3-WAY SPEAKER DESIGN

## Hi-Fi Speaker Design Philosophy

Drawing from more than 30 years of HiFi speaker experience from acoustic engineers, we applied HiFi speaker technology to TreSound1. The speaker structure adopts a 3-way speaker design. In the cabinet, we isolate the high frequency, mid frequency and low frequency into three compartments, and use the bass reflex design to avoid sound wave attenuation and acoustic short circuit. It also maximizes the performance of the speaker and truly achieves high-fidelity sound quality.

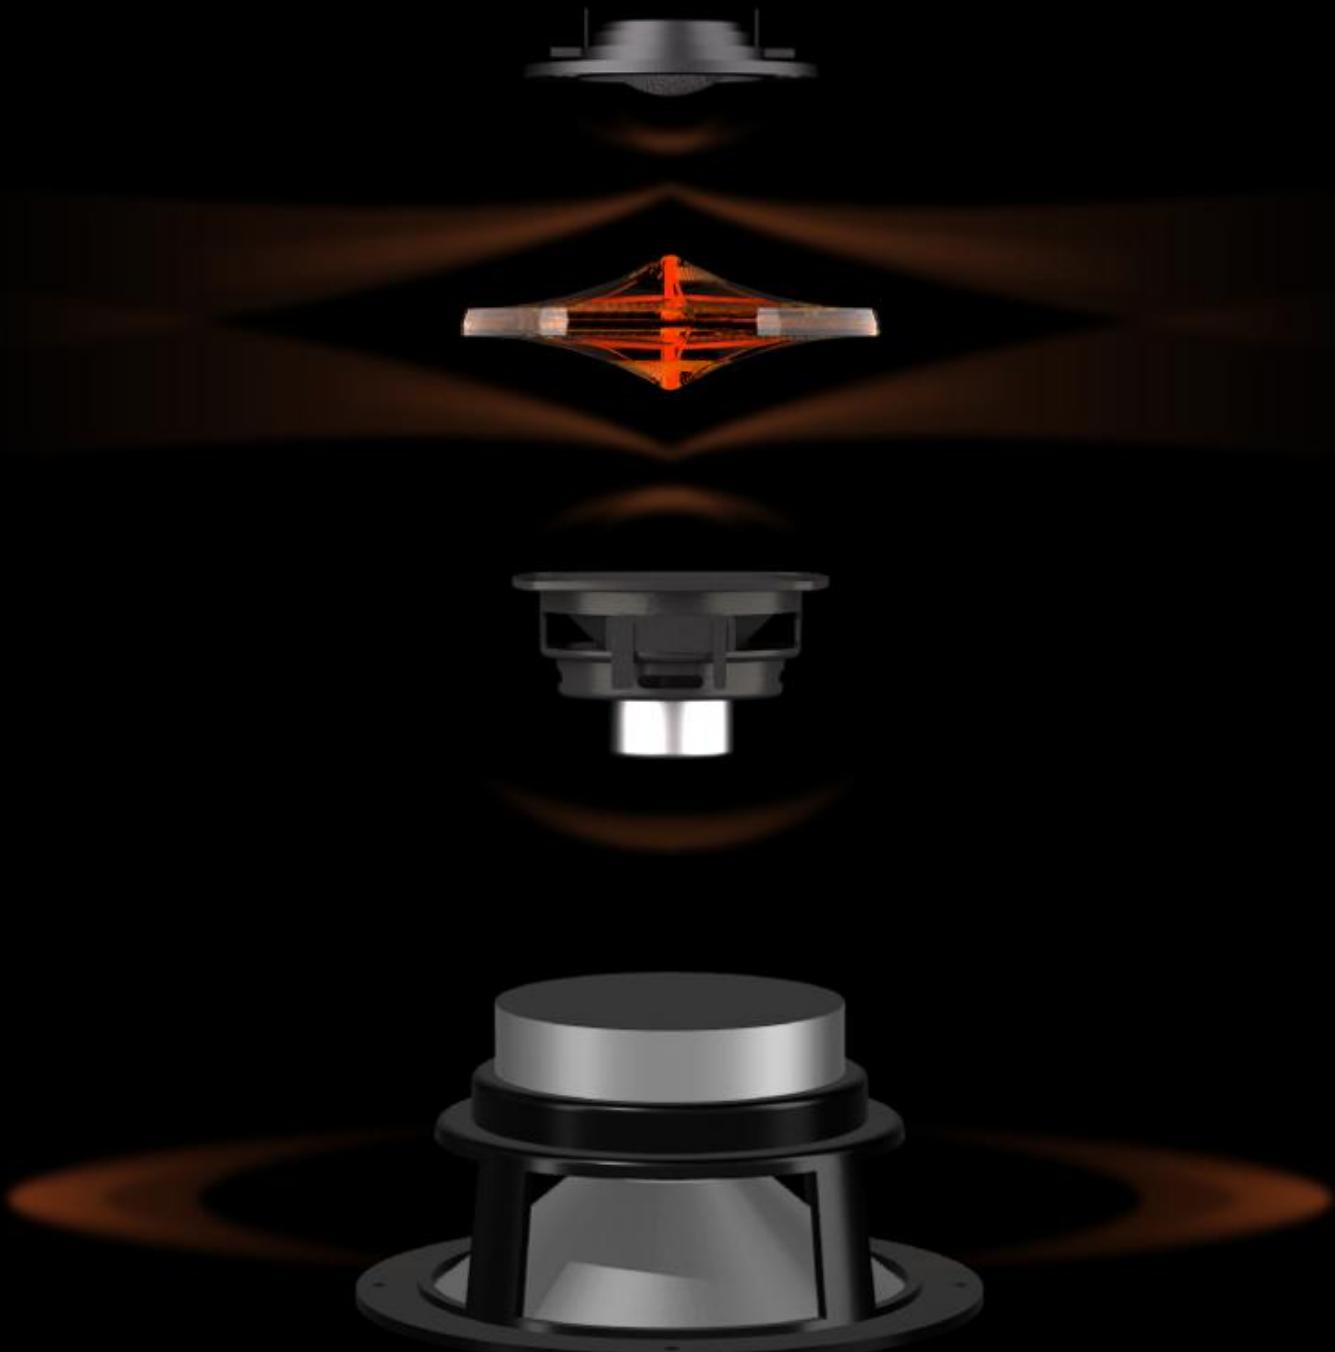

# ACOUSTIC STRUCTURE

TTT® Acoustic Structure

The cone-shaped guiding structure is like a diffusing sound wave, efficiently spreading high-frequency and mid-low-frequency sound waves 360° all around. When the music is played, light effects engage through a network of sounds.

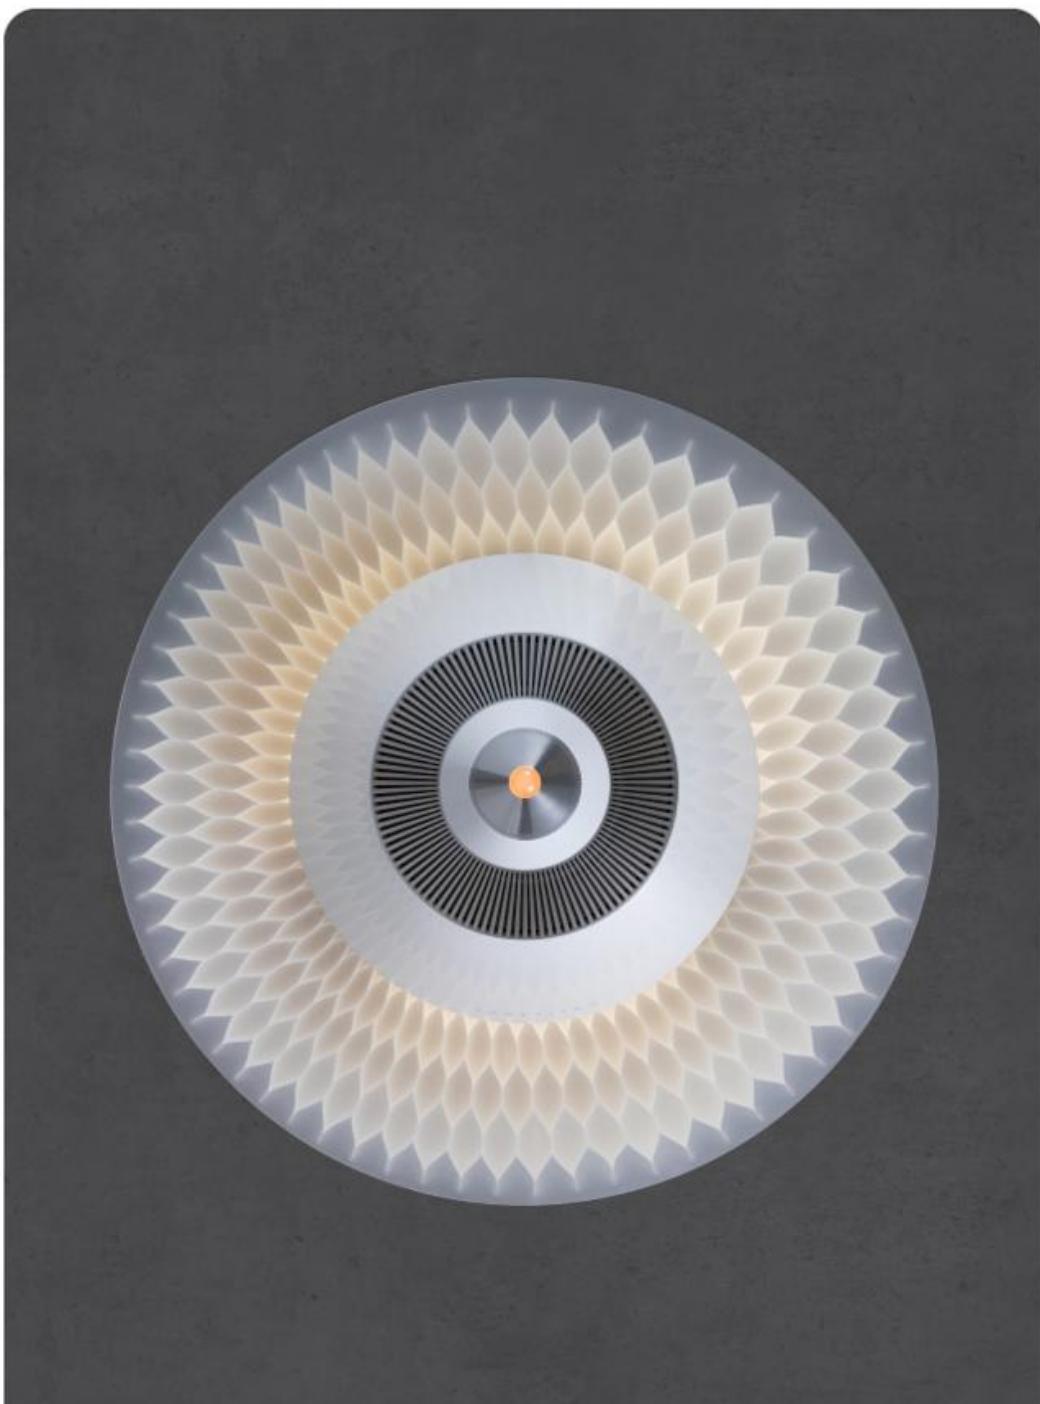

# 360° SURROUND SOUND

Unparalleled

The secret of the 360° surround sound range is hidden in the peak of TreSound1. When the music is played, the sound, like light, is emitted in all directions. Transparent treble and full vocals flow in all directions to create a soundscape around you for total immersion in stereo sound.

# TWS STEREO PAIRING

((o))

Two devices can be paired into TWS left and right channel stereo, instantly expanding a wider soundstage and creating an even more immersive audio experience, allowing you to experience being in a live music scene.

## Qualcomm® aptX HD

Bluetooth 5.2 Qualcomm aptX HD chip, Fast and stable transmission of high resolution, high fidelity audio at 24bit/48kHz, The final constraint of Bluetooth speakers has finally been removed.

## CONNECTING & PAIRING

After both speakers are turned on at the same time, press the pairing button of each speaker briefly, and the device will automatically pair. After successful pairing, there will be a prompt sound.

Host (left channel) -- UFO light flashes for breathing,

Auxiliary machine (right channel) -- UFO light remains on for a long time.

Search for and connect to the speaker via Bluetooth. Only "TRETTITRE" will appear in the list of available Bluetooth devices.

AUX connected speakers, please connect the audio source to the host via AUX (3.5mm stereo cable).

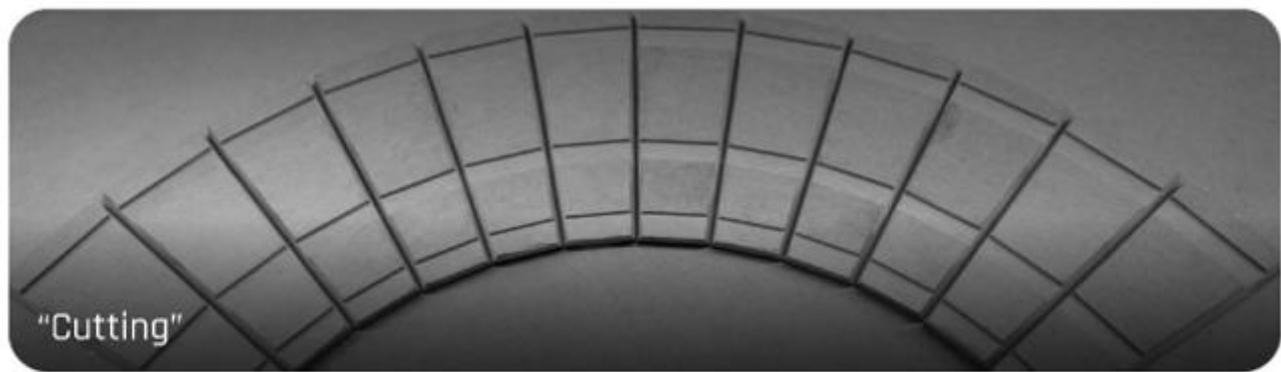

# WOOD CABINET

with the perfect piano paint finish.

Wood and lacquer technology are the perfect combination and is the choice for high end pianos. The cabinet has undergone a total of 4 piano paint processes. After polished 13 times, it develops a jade like texture. Finally, it is fully assembled and after more than 100 processes, it becomes a work of art.

# ALUMINUM ALLOY CNC

The Radiance of Metal

The top knob and network upgraded to aluminum alloy, using CNC integrated molding and supplemented by oxidation process to generate a smooth texture and rich luster. This results in a presentation of artistic colors and sleek design to bring out the natural qualities of metal and wood in complementary unison. Simultaneously, this prevents distortion and has superior acoustic characteristics.

SOUND

## TreSound mini

Desktop Bluetooth Speaker

- Aluminum alloy cabinet with CNC & re-oxidation processes.
- TWS pairing & 360° surround sound.
- TTT customized speaker & TTT acoustic structure.
- Bluetooth 5.3 with dual DSP decoding & 5200mAh lithium battery.
- Four color selections & RGB light effects.

SILVERY

GOLDEN

BLACK

Model: TreSound mini / Input: USB-C 5V=3A / Capacity: 5200mAh / Charge Time: 2h / Bluetooth: 5.3 / Speaker: 1\*1.0" Tweeter, 1\*2.75" Woofer / Sound Direction: 360° / TWS Pairing: 1+1 / Woofer Sensitivity: 83dB / Max SPL: >92dB / Frequency Response: 50Hz - 20KHz / THD: <5% / RMS: 30W / Material: Metal+ABS / Size: 168\*168\*252mm / Weight: 1kg /

# PURE METAL FUSELAGE

Through the CNC and re-oxidation processes, the fuselage is far beyond the common scope. While the resilience of aviation aluminum ensures the strength of the fuselage, the acoustic characteristics effectively suppress negative resonance to present pure sound.

# Qualcomm® aptX HD

Bluetooth 5.2 Qualcomm aptX HD chip, Fast and stable transmission of high resolution, high fidelity audio at 24bit/48kHz,  
The final constraint of Bluetooth speakers has finally been removed.

# TWS STEREO PAIRING

Two devices can be paired into TWS left and right channel stereo, instantly expanding a wider soundstage and creating an even more immersive audio experience, allowing you to experience being in a live music scene.

## CONNECTING & PAIRING

After powering on both speakers, simply press and hold the pairing button on one of the speakers to initiate pairing (the other speaker does not need to be operated). The devices will automatically pair with each other.

Search for and connect to the speaker via Bluetooth. Only "TreSound mini" will appear in the list of available Bluetooth devices.

USB-C connected speakers, please connect the audio source to the host via USB-C cable (support data transfer).

## TIPS:

In pairing mode: The orange indicator light flashes slowly;

Pairing successful:

The orange indicator light flashes quickly (Bluetooth Searching);

The orange indicator light stays on (Bluetooth Connected / USB-C Audio Connected).

After successful pairing, the speakers can be restarted to keep the pairing.

## TreSound Q

Camping Lamp Bluetooth Speaker

- Built-in a camping light & IP67 rating.
- TWS pairing & 360° surround sound.
- TTT passive radiator & TTT waterproof speaker.
- Bluetooth 5.3 & 10+ hours battery life.
- Multiple colors available & suitable for the TTT Light Pole.

FRESH DEWY GREEN

SERENE MIST BLUE

MAJESTIC CLOUD RED

Model: TreSound Q / Input: USB-C 5V=2A / Capacity: 1800mAh / Lighting: 300LM / IP67 / Bluetooth: 5.3 / Speaker: 1.75" Full-Range Speaker / Sound Direction: 360° / TWS Pairing: 1+1 / Woofer Sensitivity: 83dB / Max SPL: >92dB / Frequency Response: 80Hz - 20KHz / THD: <10% / RMS: 5W+3W / Material: PC / Size: 90\*90\*130mm / Weight: 175g

# Camping Lamp Bluetooth Speaker

TreSound Q is a camping lamp Bluetooth speaker designed for lightweight outdoor camping. It features an IP67 rating, making it dustproof and waterproof. With its mountain-shaped design and durable carrying strap, it can easily be hung on backpacks, tables, floor stands, and any other location that requires both lighting and a musical atmosphere. Two speakers can be paired for TWS stereo sound, with 360° high-efficiency sound diffusion. The camping lamp offers three brightness levels, with a maximum of 300 lumens, as well as an SOS emergency mode. It has a battery life of over 10 hours, allowing for worry-free outdoor camping experiences.

## 360° Surround Sound & TWS

---

Within the soundweb, a 360° realm unfolds, A symphony surrounds, its magic takes hold.  
With TWS stereo pairing, left and right unite, Creating a vivid, three-dimensional delight.  
A lifelike journey, where music comes alive, Enhancing every layer, details strive.

Bluetooth 5.3

# TTT® A Customized Passive Radiator

---

Embracing TreSound's classic cone-shaped art,  
The 1.75-inch neodymium tweeter, audio's vibrant heart.  
With over 92dB, it conquers the wild uproar, While a custom 50mm passive radiator roars, bass galore.

High decoding ability, high-frequency response it displays,  
Even at high volumes, top-notch sound quality stays.

# IP67 Dustproof & Waterproof

---

Perfect for urban camping and mountainous outdoor activities, it can withstand splashes and sprays effortlessly! The speaker and the entire circuit are treated with IP67 waterproof and dustproof technology.

## Professional Outdoor Suspension Rope

---

Dyneema,  
Unbreakable by knives, impervious to bear's paw, it's the hope.

# T R E T T I T R E

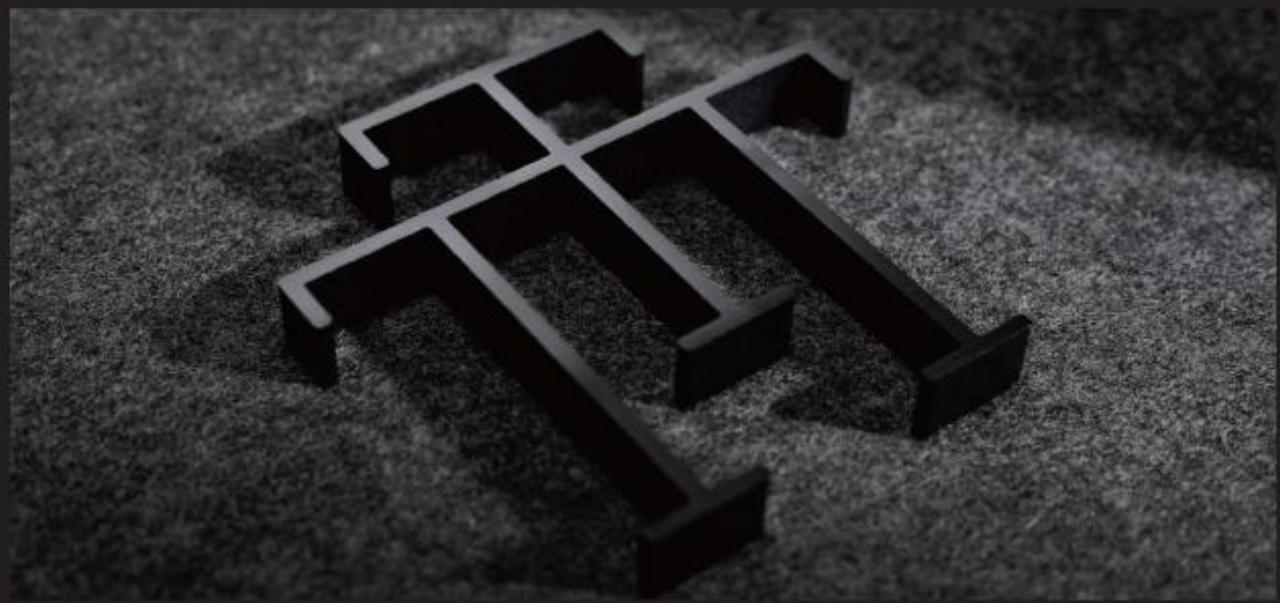

TRETTITRE is an emerging speaker brand dedicated to the new generation of HiFi. Building on traditional HiFi's sound quality and craftsmanship, it is based in tradition and reaching into the future.

A new TRETTITRE model takes many months or even years to go from initial concept to final product. Along the way, it is meticulously engineered and continuously refined until it meets our exacting standards. Then our employees' skilled handcraftsmanship is combined with our vast manufacturing capabilities to turn those designs into revered home audio products.

## DISCOVER THE BEAUTY OF SOUND

In the 20 to 30 years of achieving a balance between "beauty" and "quality" of sound. Our designers, acoustic engineers, and handcraftsmen have developed a deep understanding of HiFi music.

We are trying to make the traditional HiFi speakers more modern, combining the latest technologies, bluetooth wireless protocols and techniques to provide a complete HiFi audio system—HiFi Speaker, Vacuum Tube Power Amplifier, Transistor Amplifier, CD Player, Vinyl Record Player, etc.
